

# Your HSHS Pension Benefits

## Did you know HSHS offers an online pension portal and access center?

### Traditional Pension Plan Participants

Your accrued monthly benefit, which takes into account the pensionable hours and earnings you accrued in 2020 has been applied to your account.

### Cash Balance Plan Participants

Your 2020 contribution credit, a percentage of your eligible pay that HSHS adds to your account each year you are paid for at least 1,000 hours has been applied to your account.

### You can:

- Generate future pension estimates
- Review current pension benefits
- Designate beneficiaries
- ... and much more!

Whether you're just starting out or have been earning your way for quite some time, HSHS strongly encourages you to register an account.

*Colleagues who have NOT been employed at an HSHS ministry for a minimum of 12 months and/or have yet to work 1,000 hours or more in a calendar year will not have access to the online pension portal, until participant requirements have been met.*
